

Zerbach & Company invites industry experts to exchange ideas and adds two experienced entrepreneurs to its Advisory Board

Cologne, April 2025.

The Zerbach & Company Advisory Board of Industry Experts met in April in perfect spring weather at the Arp Museum in the historic Rolandseck station to discuss current challenges, market trends and future topics in a wide range of industry sectors.

After a guided tour of the art museum, the participants quickly became engrossed in lively and intensive discussions. The opportunity to share experiences, successes, but also how to deal with difficult situations, i.e. their own expertise in the various sectors, was very informative and enriching for everyone. A dinner together in a relaxed atmosphere rounded off the harmonious meeting.

Expansion of the Industry Expert Advisory Board

After almost 10 years, the Advisory Board, which has been in place since 2016, has now been expanded to include two additional experienced entrepreneurs:

Ralf Hammer

Jan Hinrichs

Further information on the industry experts can be found at: www.zerbach-company.de/team

The circle of experts, which now comprises 12 people, combines a broad spectrum of many years of entrepreneurial experience as well as extensive networks in a wide range of industries.

Zerbach & Company benefits from this wide-ranging expertise, particularly regarding project-related support on industry-specific and strategic issues. The industry experts contribute their extensive networks and expertise and are available as regular sparring and discussion partners.

About Zerbach & Company

Zerbach & Company, founded in 2014, is an independent, internationally active M&A advisory firm with a focus on medium-sized companies.

We advise owner-managed companies, international family businesses, family offices, investment companies and start-ups on company acquisitions and sales, the implementation of corporate succession, debt advisory and corporate finance projects. The team is supported by its Industry Advisory Board, consisting of 12 renowned industry experts and business personalities.

Since 2014, we have supported well over 60 successfully completed M&A projects with companies and investors from 18 countries. Through our international partners, we have access to local expertise worldwide.
